Optimized Scanners for Lumber Trimming and Fitches Edging

LMI GOCATOR 200 SERIES

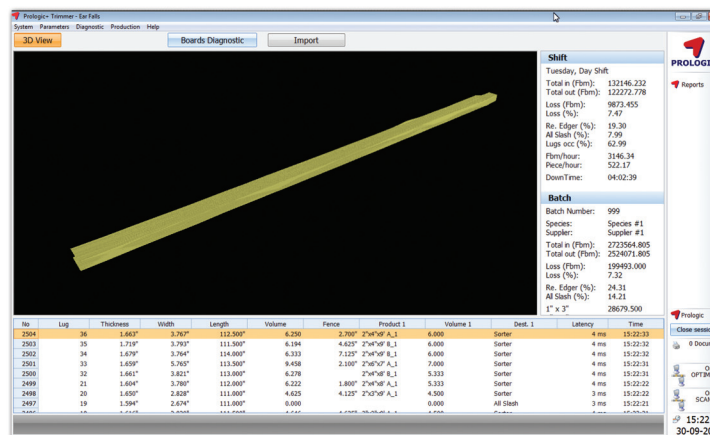

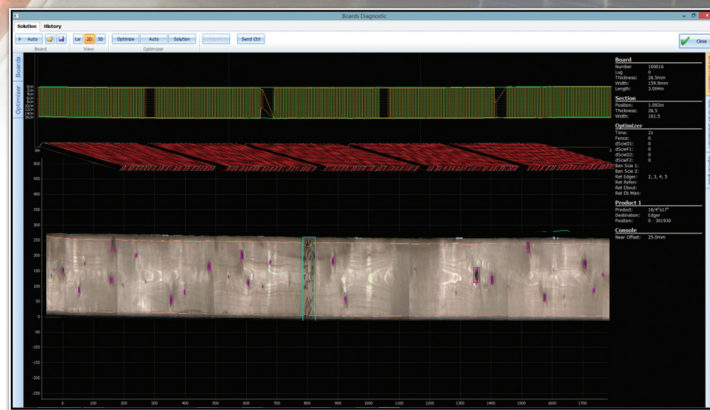

- Scan Density (Z): 0.375"/ 8.46mm
- Operating Speed: Up to 200 lugs/min.
- Accuracy
 - Thickness: $\pm 0.020''/\pm 0.813\text{mm}$
 - Width: $\pm 0.032''/\pm 0.508\text{mm}$
 - Length: $\pm 0.333''/\pm 8.46\text{mm}$

OPTIMIZATION

- Wane and Skip (normal, equivalence & ends)
- Wane Dip and Skip Dip
- Holes detection
- 40 wane rules, 9 grades per rule.
- 3 optimizing modes (\$/piece, \$/Mpmp(m3) & volume)
- Solution analyzer

SIMULATION

- Simulate with different parameters
- Manually save pieces or automatic saving with criteria
- Time Range Reports
- Web Browser Reports
- Simulation Reports
